The Corporate Members of CEDA	18

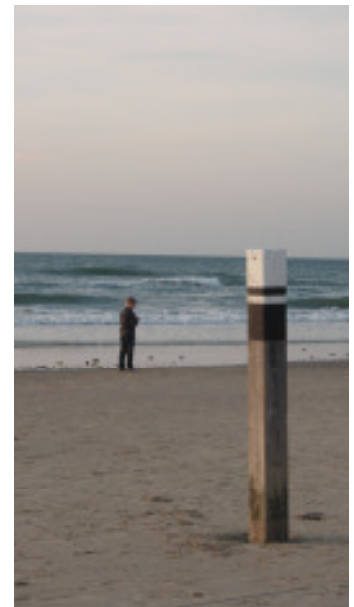

Foreword

The world economy has rapidly grown over the last decades. Dredging is a vital instrument in sustaining this growth. In its ambition to express CEDA's leading role in being the only neutral reference in its region for all dredging related issues, CEDA broadened its services considerably over the last few years.

In order to share this ambition with its members and stakeholders, the CEDA

Board of Directors decided to publish formal annual reports. This first annual report expresses CEDA's ambition to stay at the frontline of the dredging world. However, the functional design of the report also reflects CEDA's frugal operating practice.

This report, together with a more extended CEDA Summary report, is also available on CEDA's website. This website is the best reference for all members and stakeholders to get information.

Word of the President and General Manager

find some of the highlights:

The CEDA Board of Directors adopted CEDA Strategy 2009, dubbed as "The way ahead"

reaffirming CEDA's original aims while it also reflects the changing world and the changing needs of existing and prospective members. The new commitment to strategic planning helps us focus on actions and initiatives that ensure that we grow, develop and remain relevant in the future and at the same time remain a financially sound organisation.

Last year we continued our presence in the Baltic region, one of our target areas, where we organised our second seminar. We are very pleased with the success of our close co-operation with our sister association, WEDA, in Panama where we organised a joint seminar. During our trademark conference, CEDA Dredging Days 2009, we stressed the importance of innovation and investing in

research and development to bring about the types of technology and solution that will ensure that our profession will live up to the challenges that lie ahead. Our National Sections organised a great number of well-attended meetings covering a wide range of high quality presentations and true to CEDA's spirit there was no shortage of open and constructive discussions. By organising these events we provided invaluable opportunities for members and other dredging professionals to exchange knowledge and experience on sustainable dredging solutions. Through all our activities we demonstrated our commitment to the concept "Building with nature".

The past year has seen CEDA increase its efforts to engage with its current and prospective members on the role and values of the association. The revamped CEDA website, the Digital Newsletter, this Annual report, our strong presence in

DPC as well as the reinvigoration of CEDA's Communications Committee are all testament to this. Not as spectacular but equally important is the automation of the membership administration procedures. Streamlining these procedures frees up staff time and enables us to focus on giving more back to its members.

It remains only to offer thanks to those numerous CEDA members who have generously volunteered their time and worked with enthusiasm and dedication on various committees, task groups or as technical representatives of our Association. Special thanks must also be given to the organizations supporting these individuals whose backing is gratefully acknowledged by CEDA.

Members, officers and staff,

We can be rightly proud of what we achieved together in 2009, the 30th year of existence of our Association. The ability to recognize emerging challenges and opportunities and to act on them has always been one of the strengths of CEDA. 2009 was not short of either of these. We encountered: economic slowdown, climate change, tightening environmental regulations. Furthermore we came across competition for share of members' wallets and attention, coupled with members willing to spend less and expecting more from us as an organisation.

And swiftly we acted. What we achieved is described in this report. Below you can

General Manager
Anna Csiti

President
Anders Jensen

About CEDA

The Central Dredging Association (CEDA) is an internationally recognised independent professional association. It is an easy-to-access leading platform for the exchange of knowledge and an authoritative reference point for impartial technical information. Strongly recommending working with nature, CEDA actively strives to contribute towards sustainable development. CEDA members are corporations, professionals and stakeholders involved in a diversity of activities related to dredging and marine construction.

Mission

CEDA's mission is to be an independent, easy-to-access, leading platform for corporations, professionals and stakeholders involved in any kind of activity related to dredging and marine construction. Through CEDA's programmes, products and services to

members, it aims to advance professional development and corporate and personal success. It fosters technological innovation and advances in best practice.

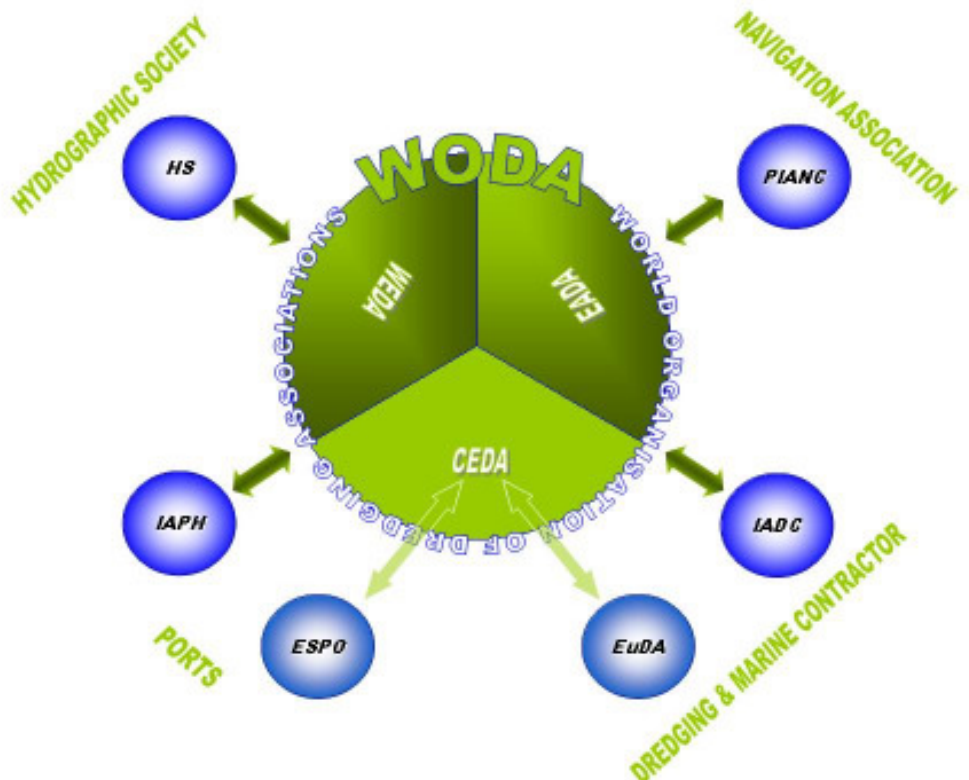

Vision

CEDA's vision is to be essential to corporations, professionals and stakeholders in the fields of dredging and marine construction and to be universally recognized for its professional expertise and balanced, impartial views.

POSITION

CEDA is part of the World Organisation of Dredging Associations (WODA) and is responsible for Europe, Africa and the Middle East. CEDA's two sister associations, WEDA (Western Dredging Association) and EADA (Eastern Dredging Association), serve the Americas, and Asia, Australia and the Pacific region respectively.

A number of international and national organisations, both professional and trade, currently operate in dredging and related fields. The graph shows those international organisations with which CEDA has regular contacts and co-operates on projects of common interest.

Our members, our value

One of CEDA's distinctive strengths lies in its diverse membership. CEDA members, corporations, organisations and individuals come from many different fields and include project owners, commissioners of large infrastructure projects, dredging contractors, equipment manufacturers, consultants, academia and regulators. The graphs and table show the diversity and the geographical spread of CEDA's members.

Countries of origin

Algeria	Germany	The Netherlands	Surinam
Argentina	Guinee	Nigeria	Switzerland
Australia	Greece	Norway	Togo
Belgium	Indonesia	Portugal	Tunesia
Canada	India	Qatar	United Kingdom
China	Iraq	Romania	Ukraine
Cyprus	Ireland	Russia	United Arabic Emirates
Denmark	Italy	Senegal	USA
Finland	Malaysia	Singapore	
France	Mauritania	South Africa	and other non-CEDA region countries
Gabon	Morocco	Spain	

Compared with 2008, CEDA grew in 2009 with the addition of 6 new Corporate Members but unfortunately lost 12 Individual Members bringing the total membership to 132 corporates and 551 individuals. New members were welcomed from 10 countries. This striking and scattered membership in a relatively small world-wide sector is the true testament of the need for and value of an organisation such as CEDA for the dredging and marine construction community.

In the year 2009 the following companies/organisations joined CEDA as Corporate Members

- AJB Dredgeco Ltd, Ireland
- Allard-Europe, Belgium
- Aqua Vision, the Netherlands
- AVV Design LLC, Ukraine
- COWI A/S, Denmark
- Duik Combinatie Nederland BV, the Netherlands
- EDT Marine Construction, Cyprus
- GLM van der Schrieck, the Netherlands
- Grab specialist BV, the Netherlands
- Holland Marine Technologies BV, the Netherlands
- Inchcape Shipping Services, Dubai, U.A.E.
- Independent Risk Solutions BV, the Netherlands
- JFA Consultants Pty Ltd, Australia
- Łuckamos Limited, Nigeria
- MACCS, UK
- Seaworks.be, Belgium

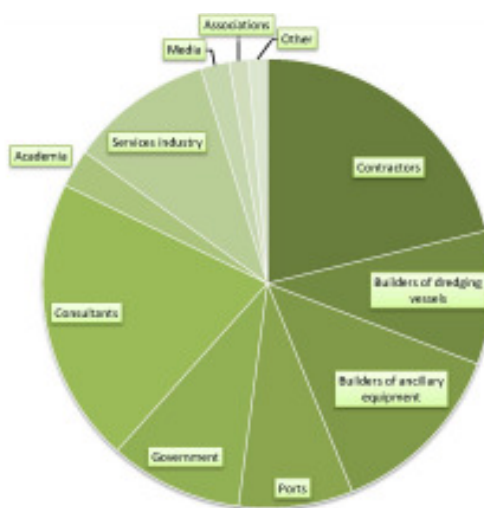

"A small and independent organization such as CEDA depends on the goodwill and efforts of volunteers."

CEDA Volunteers: CEDA's pillars

CEDA is driven by its members, many of whom dedicate their time and expertise on a voluntary basis. The growth of our association is based on their enthusiastic and dedicated work; they are the true pillars of CEDA.

Composition of CEDA Membership by main area of activity

National Sections

CEDA National Section meetings are excellent for networking

CEDA DREDGING DAYS 2009
5-6 NOVEMBER 2009
Antwerpen, Belgium
DREDGING TOOLS FOR THE FUTURE
CONNECTIONS FOR THE FUTURE

CEDA's trademark conference CEDA Dredging Days, has established itself as the foremost international dredging conference in Europe

CEDA members at Storebælt, Denmark

Member of the World Organisation
of Dredging Associations, WODA

Areas or countries with many CEDA members can set up a Regional or National CEDA Section to support the interior networking by organizing national/regional events. These Sections are the smallest clusters through which CEDA members can become part of the CEDA network and through WODA be connected to the worldwide network of professionals who share the same interest in dredging

Dutch Section

CEDA's oldest and biggest National Section is undoubtedly the Dutch Section with 349 individual and 58 corporate members. 2009 proved to be an active and stimulating year for the Dutch dredging industry society with 7 well attended meetings. It was possible for corporate members to host all those meetings. It still proves a challenge to increase the attendance of young professionals in the CEDA community.

In 2009 the attendance of the CEDA-NL meetings was 114 persons on an average. The subjects were:

- Cooperation, Construction and Stability Issues concerning the Offshore Disposal Site Hollandsch Diep (January)
- The TSHD: Vox Máxima (March)
- Cristóbal Colón: world's largest TSHD (April)
- Coastal Management Delftland and the second Delta Committee (May)
- Coastal Morphology in the Dutch Coast (June)
- The Dredging Industry in China: "SWOT" or "So What" (September)

and marine construction. The Chairmen of these Sections are CEDA ambassadors through whom newcomers can swiftly and easily enter the CEDA community.

Once again CEDA's National Sections succeeded in organising a programme of many meetings and the high attendance of these meetings, established in the preceding years, was kept on a stimulating level

- The best result for Client and Contractor (November)

The society "Maintenance in Dredging", of which CEDA-NL is a founding father, convened twice in 2009 on the themes "Fire on board" (June) and "Innovations in maintenance" (October).

British Section

The British National Section of CEDA was founded in 1983 and has some 59 individual members and 17 corporate members. The British Section has continued its role as an Associated Society of the Institution of Civil Engineers (ICE) and contributes to the Learned Society function of the ICE with respect to dredging.

In 2009 a diverse programme was held, starting in February with the John Sargent lecture 'Ecology vs. Economy: from gaps to integration, does it have to end in tears?', followed by two half day meetings:

- Climate Change adaptation for the Port, Coastal and Dredging Sector (May)
- Disposal of Dredged Material on Land (December)

throughout the year. The Sections managed to list themes of topical interest that attracted lots of attention. Altogether, CEDA's four National Sections held 14 well attended meetings/site visits/events over the year 2009. Many of the presentations are available online on the CEDA website on the appropriate National Section pages.

These meetings were attended by approximately 50 people each with representation from government and key industry stakeholders.

Additionally, a site visit to the port development at Felixtowe was undertaken in June, where dredging and reclamation works were observed.

Aside from meetings and seminars, there has been active involvement with the development and implementation of National and European legislation that may affect the dredging industry.

Belgian Section

CEDA Belgium, launched in 1988, consists of 84 individual and 16 corporate members. In 2009 two new corporate members were welcomed. After the very successful CEDA Dredging Days 2008 in Antwerp, 2009 was a rather quiet year for the Section. It continued its normal rhythm of

CEDA-BE Executive Committee

From left: R L'Heureux, C Dekeyzer, M Ockier, C Goetschalckx (Secretariat), F Aerts, J Smits

Missing: B Verboomen, C De Meyer, J Claessens

three meetings per year, taking place in Antwerp and Ostend. The attendance of these meetings came to about 40 attendants per meeting, representing half of the individual membership.

The following subjects were presented:

- The actualised Sigma-plan: flood protection in the Maritime Scheldt basin (February)
- Coastal protection and enlargement of the estuarine national park "Zwin" (June)
- The Flemish Bays 2100 project (October)

African Section

Established in 2002, the African Section is the youngest regional section of CEDA.

The Section has national

At one of the recent international seminars of the African Section

committees in 10 African countries (Algeria, Angola, Gabon, Guinea Bissau, Senegal, Tunisia, Togo, Mauritania, Morocco, Nigeria). In 2009 CEDA-AS had 16 corporate members.

After 7 very active years, during which the Section organised seven international events in four different countries (Algeria, Morocco, Senegal and Tunisia), 2009 appeared to be a quiet year. However, serious works have been going on in planning and preparing three international seminars to be held in 2010

in Gabon, Morocco and Tunisia. In addition, the two-day CEDA-IADC Training Course, Environmental Aspects of Dredging will also be presented in 2010, for the first time in Africa, organised by the Section.

CEDA-NL Executive Committee

Events

Organising events forms a major part of CEDA's activities. Below is a brief overview of the events that took place in 2009.

Conferences and seminars

November, CEDA Dredging Days 2009, Rotterdam, the Netherlands

Themed "Dredging tools for the future", CEDA's flagship event this year was one of the best attended Dredging Days ever. In five technical sessions spanning two days 22 papers were presented in a high quality, well-designed technical programme. The conference kicked off with an excellent and perfectly matching keynote entitled "Regulatory challenges for shipping - a shipowner's view" by Peter Hinchliffe, Marine Director, International Chamber of Shipping, UK. Further highlights included the well-proven "Academic Session" featuring brand new scientific results of young university staff, the completely new CEO Forum in which renowned leading senior executives gave their views of the state of the industry in the current economic slowdown, the technical visit to Europe's biggest port expansion project, Maasvlakte 2, and the highly popular CEDA Netherlands Reception with its unsurpassed networking opportunity. The conference attracted over 200 participants. With 16 stands, the accompanying technical exhibition was oversold. Keeping with the tradition, CEDA Dredging Days 2009 was held in conjunction with Europort 2009 Tradeshow at Ahoy Rotterdam.

March, CEDA-WEDA seminar "Connecting the World through Dredging", Panama

The two sister associations, CEDA and WEDA have organised their first joint international seminar on sustainable dredging and maritime construction. This event, attracting 110 experts from 10 CEDA and WEDA countries, took place on March 2nd 2009, in Panama City. The one-day event was sponsored and hosted by the Panama Canal Authority (ACP), the owner of one of the most exciting and prestigious hydraulic construction works, the Panama Canal Expansion Programme. The programme included presentations about widening and deepening of the existing canal, and the construction of 2 new sets of locks, which will double capacity and allow more traffic and longer, wider ships.

Announcement of WODCON XIX

Every three years a World Dredging Congress (WODCON), the single most important event in the dredging calendar, is organised by one of the WODA associations. From 8th to 12th September 2010 WODCON XIX will take place in Beijing, China and will be organised by our sister association EADA.

A large number of CEDA members will contribute to the technical programme by high quality technical papers. CEDA manages the CEDA region papers and the Paper Committee received and assessed 32 abstracts from CEDA region authors. All submitted abstracts have been accepted.

At the CEDA-WEDA seminar in Panama

Top: ACP Executive Vice-President of Engineering and Program Management Jorge L. Quijano opens the seminar

Middle: Attentive audience

Bottom: The audience engaged in lively discussions

October, CEDA-RSHU seminar “Eco-friendly dredging in the Modern World”, St Petersburg, Russia

CEDA has organised this technical seminar together with the Russian State Hydrometeorological University (RSHU) and the St. Petersburg State Polytechnical University (SPbSPU) and in co-operation with the Government of St. Petersburg, Committee for Nature Use, Environmental Protection and Ecological Safety. This two-day seminar provided a forum for the exchange of knowledge and ideas about dredging and marine construction between scientists and practitioners, across disciplines and countries. As in many other parts of the world, the fast growing economy of the Russian Federation generates a high demand on dredging services. Impressive projects in and around St. Petersburg, such as the expansion of the Port, the construction of the Sea Fasad, the Flood Protection Barrier and the Nord stream gas pipeline are true testament to that.

October, CEDA-RSHU Workshop: Presentation of the CEDA-IADC book “Environmental Aspects of Dredging”, St. Petersburg

The day before the above mentioned seminar, as a separate event, CEDA and RSHU organised a special workshop for Russian university professors and lecturers. The aim of this workshop was to present the CEDA-IADC book “Environmental Aspects of Dredging” that was published last year with a view to be used in the country’s universities. In 2010 the book will be translated into Russian language.

Technical visit

September, Technical visit Denmark

Technical visits are regularly organised by the Regional and National Sections and in connection with our seminars and conferences. In 2009 CEDA established its first stand-alone site visit exclusively for members to Denmark’s Storebaelt Link and Oresund Link. Participants heard first-hand about the lessons learned from the design and construction of these two large infrastructure developments. It is our intention to organise other technical visits like this on a regular basis in countries without a national section.

Training courses

February 2009, Environmental Aspects of Dredging, Delft, the Netherlands

The CEDA- IADC training course on environmental aspects of dredging was presented for the third time with great success at the Delft University of Technology, the Netherlands, as part of the University’s post graduate education programme (PAO). The course was attended by some 20 experts from different countries. Among the participants were consultants, dredging contractors, representatives of port authorities, and local and federal government. Subjects covered by the lecturers, Nick Bray and Gerard van Raalte, included evaluation of environmental and socio-economic impacts of dredging, site investigations, dredged material management and dredging equipment. In addition to the lectures, participants were challenged, in workshops, to work in small groups on case studies resembling real-life projects, to apply the principles learned during the lectures.

Services

In addition to offering a platform for information exchange and networking, CEDA offers a variety of other services to its members. An important service is delivering information in publications as well as online. Another service is the possibility for corporate members to present themselves online at events and in publications including

white papers. The digital services and the possibilities for corporate members were expanded considerably in 2009.

Publications

DPC

Every CEDA member receives, as a benefit of his/her membership, a subscription to DPC (Dredging and Port Construction), the official CEDA magazine. This specialised monthly publication keeps the readers informed of the latest developments in the sector and is helpful in identifying the appropriate business partners. DPC also keeps readers up-to-date on CEDA activities.

DPC online

From 2009, CEDA members have access to the online version of official DPC and can browse or download the archives.

Conference and seminar presentations

CEDA made available on the dedicated CEDA website, www.cedaconferences.org all the presentations made at the CEDA Dredging Days 2009 (also available on CD-ROM), the Panama and the St. Petersburg seminar. Presentations made at National Section meetings (that were made available for publication by the speakers) have been uploaded to the appropriate meeting page on the CEDA website, www.dredging.org.

CEDA Information Paper: Dredging and the Environment: moving sediments in natural systems.

Produced by CEDA's Environment Commission (CEC); in this short document CEC presents its consolidated view on what environmentally responsible dredging really means at the beginning of the 21st century. It emphasizes the importance of full consideration of the environment from the very first planning phase of a project.

New books with discount for CEDA members.

This year 2 books have been added to the set of books relevant for CEDA members available from the publisher with 20-25% CEDA member discount.

-Integrated Coastal Policy via Building with Nature®
by R.E. Waterman

-CEDA-IADC: Environmental Aspects of Dredging. Ed. R.N. Bray

Digital services

CEDA website

The CEDA website has been re-vamped this year. New information, improved navigation and member access have been streamlined and the site has a new look and feel. The site has been configured so that it will allow for increased interactivity and provide more member-generated content in the near future. The website also offers the possibility for online registrations.

CEDA Digital Newsletter

After a beta test version in December 2008 the CEDA Digital Newsletter has become a standard element of member services this year.

CEDA dictionary and dredgeline

Both online databases remained accessible for those interested.

Member of the World Organisation of Dredging Associations, WODA

Services to corporate members

White Papers on line

As a new benefit of membership, CEDA offers its corporate members the possibility to publish commercial “White Papers” in the CEDA Newsletter and on the CEDA website.

Member project in the spotlight

On the front page of the CEDA website short videos of CEDA member companies can be featured.

As part of a continuous process, the already available set of tools used to promote CEDA corporate members and their products and services was enhanced. There is a slide show at the CEDA Dredging Days. Corporate members are also offered, sponsorship opportunities at events and , company listings with contact details are regularly distributed, etc.

The Environment Commission and CEDA’ s International Representation

The Environment Commission (CEC), established in 1991, aims to promote the education and instruction of CEDA members and others in the fields concerned with dredging and dredging-related activities with an emphasis on environmental aspects. Another aim is to generate and disseminate quality information on environmental aspects of dredging and associated matters and to develop or contribute to the development of guidelines relating to good practice. Finally, CEC aims to be pro-active in providing expertise in relevant policy making activities. This Commission is a vital network for the exchange of knowledge and experiences in environmental aspects of dredging. It is also a centre for communication and training on this subject and a platform for promotion of dredging as a tool for sustainable development.

“CEDA Advancement Notes”. Position papers summarise the view of CEC on a particular subject. Occasionally these are developed in collaboration with other international associations. In 2009 an information paper “Dredging and the Environment: moving sediments in natural systems” was published. In 2010 other papers will follow.

- The OSPAR Convention, for the Protection of the Marine Environment of the North-East Atlantic
- The Strategic Co-ordination Group for the EU Water Framework Directive Common Implementation Strategy
- The Marine Strategy Co-ordination Group of the of the EU Marine Strategy Framework Directive Common Implementation Strategy
- The International Commission for the Protection of the Danube River.

Nick Bray tells about CEDA and the book “Environmental Aspects of Dredging” in St. Petersburg

Within CEDA, CEC has also been responsible for the development and presentation of the joint CEDA-IADC training course “Environmental Aspects of Dredging” .

In order to be pro-active on legislation, the CEC is active in several international bodies:

- The London Convention (1972/1996 for the protection of the Marine environment from human activities, under the International maritime Organisation, IMO

Within the context of the Water Framework Directive Navigation Task Group (WFNTG) and the Marine Strategy Navigation Group (MSNG) CEDA works closely with other international associations representing the port, navigation and dredging sectors. Both groups include lobby and non-lobby organisations. Both groups are chaired by a neutral non-lobby organisation; the MSNG by CEDA.

CEDA is also represented by the CEC in the PIANC Environmental Commission and on numerous PIANC working groups dealing with dredging related subjects.

The CEC provides guidance notes, technical briefing on a broad range of subjects relating to dredging and the environment. To inform members of CEDA and the dredging community at large of issues of importance in a proactive manner, the CEC issues short papers called

CEC meets twice a year. These meetings, customarily hosted by one of the CEC members are combined with a project visit and/or with a seminar. The goal of the meetings is to identify and discuss emerging issues, generate ideas how to address these in a pro-active manner, to share knowledge and experience between countries and to plan the activities for the coming half – one year. In February 2009 there was a meeting in Panama and in October 2009 there was one in St. Petersburg, both in combination with a technical seminar jointly organ-

ised with local professional bodies (see CEDA events).

CEC celebrates a productive meeting and a highly successful seminar in St. Petersburg

Young CEDA

Young CEDA, formerly known as the Development Committee, started at the end of 2006. The committee consists mainly of the alternates of the CEDA Board members and meets twice a year.

Young CEDA dedicates itself to creating a platform for young members to express and present themselves whilst allowing for the opportunity to interact with older or more experienced fellow dredging enthusiasts and colleagues. This platform creates a mutual benefit for both younger and more senior members.

Furthermore, Young CEDA will function as a critical observer of the Board and its decisions. Where possible, Young CEDA will offer new ideas and be available for input and feedback on organisation (Dredging Days, seminars, national section meetings), procedures and decisions.

Above all, Young CEDA will help carry out the CEDA mission and objectives and be ambassadors for the dredging profession in general.

Results in 2009

Created a mission and defined objectives and actions for Young CEDA

Young CEDA Commission

From left: In front (on the swings): Loek Verheijen and Yi-Bin Shan

Back: Denis Seuryncq, Joanne Ronald, Bart Verboomen, Kathleen de Wit, Daan Rijks and Leann Nipius

Young CEDA has defined actions to attract and bind more young members to CEDA and to provide the Board with critical feedback on discussions and decisions.

A list of action points and planning has been drafted for 2010 aiming to fulfill the predefined objectives.

Improve the promotion of CEDA

Young CEDA made a general presentation for CEDA for use by members when promoting CEDA. In addition, Young CEDA is actively setting up a CEDAwiki that can be used to supply the vast amount of information available within CEDA on all dredging aspects. This internet platform allows CEDA to promote itself as a knowledge centre.

Startup the online forum

Young CEDA has taken up the responsibility to improve and launch the online forum. Programming difficulties have hampered the development to this point, even though Young CEDA already actively started using the forum.

At CEDA Dredging Days 2009

Bottom: The traditional CEDA-NL

Member of the World Organisation
of Dredging Associations, WODA

Finances

As a result of the various new services, the extended international representation and the increase of the operational costs in the last few years, in 2009 the membership fees have been increased for Corporate

Members by 15% as compared to the previous years and by 10% for individual members. The Board thanks the members for accepting this significant fee augmentation. From 2009 on, the fees will be

revised on a yearly basis instead of the three-year revision in the past.

Balance sheet 2009

Expenditures	K€	Income	K€
Office and Governance	48,7	Membership Fees	
Staff	114,6	- Individual members	34,8
National Sections		- Corporate members	203,9
- African Section	4,0	Interest and exchange diff.	3,4
- Belgian Section	4,5	Income Events/sponsoring	46,6
- British Section	2,6		
- Netherlands Section	10,0		
Services and DPC subscriptions	25,0		
Environment Commission	2,4		
Promotion CEDA and Corp. members	8,2		
Provisions	31,0		
Sundries	3,8		
Total	254,8		288,7
Result			33,9
Reserves			253,8

The much welcome positive financial result in 2009 is attributable to a serious increase in income, caused by the increase of the membership fees, the increase of the number of corporate members and the positive result of some (sponsored) CEDA events. On the costs side CEDA managed to act very cost-conscious.

Figures

Individual CEDA members:	551
Corporate CEDA members:	132
Attendees CEDA Dredging Days:	196
Attendees other events and seminars:	232
National section meetings:	14
International representations:	12
Publications for general public:	63
Publications exclusively for corporate members in 2009*:	39 presentations
Expenditures 2009:	254.800 €
Budget 2010:	257.000 €

* These have become available to the general public in 2010

Objectives for 2010

In addition to carrying on with our regular activities, initiatives started last year to implement CEDA Strategy 2009, we are going to put emphasis on the following areas:

We will continue our effort to identify and develop ways for CEDA to be relevant in those countries in our region where our Association currently is less known and actively engage professionals from those countries in our network. This effort includes the translation of the book "Environmental Aspects of Dredging" into the Russian language.

As an independent organisation, CEDA has a well-deserved reputation for quality and integrity of information and we aim to maintain that as part of our work with regulatory bodies on international and national levels. In addition

Organization

Board of Directors

As stipulated in the statutes, CEDA is governed by the Board of Directors, generally meeting twice a year. After the election of November 2009 the Board of Directors counts 14 members from 6 different countries. In 2008 a new President was appointed, together with a new Secretary/Treasurer and in 2009 six new Board members were elected.

Annual General Meeting

The Annual General Meet-

to our work in the London Convention, OSPAR Commission and in the implementation of the EU Water Framework Directive, as a new activity, we are going to actively participate in the discussions relating to the implementation of the Marine Strategy Framework Directive (MSFD). CEDA is leading the Marine Strategy Navigation Group (MSNG), which is comprising nine international associations, both lobby and non-lobby organisations such as CEDA. The task of the MSNG is to coordinate the exchange of knowledge, experience and views on international navigation issues in the context of the MSFD implementation goals.

We are committed to strengthening our position as the authoritative reference point for all information related to dredging. As part of this work we are going to launch

ing (AGM) in 2009 took place at the CEDA Dredging Days in Rotterdam, The Netherlands. During this AGM the President gave an overview of CEDA's actions, achievements and successes in 2009 and announced the objectives for 2010.

CEDA Secretariat

The day-to-day management of CEDA is carried out by a permanent Secretariat based in Delft, the Netherlands. In 2009 CEDA employed two staff members with 1.74 full

CEDAwiki to tap into and collate the vast knowledge base of our membership and make it available to all who need it – practitioners, scientists, academics as well as the general public. We are also planning to publish new CEDA Information Papers with state-of-the-art, unbiased information on subjects such as beneficial use of dredged material, climate change and turbidity.

Through Young CEDA we will relentlessly continue work to increase the engagement of young professionals.

Finally, we are going to contribute with an impressive number of high quality papers and presentations on a broad range of subjects to the year's dredging event, World Dredging Congress XIX in Beijing.

time equivalents: Ms. A. Csiti, General Manager and Ms. Y. Duivenman, administrative assistant. The main areas of work for the Secretariat are (but not limited to):

- Central contact for all CEDA related issues, questions, actions as well as other related organisations etc
- Preparing, organising and assisting CEDA events such as CEDA Dredging Days, seminars and conferences
- Supporting the Board of Directors and CEDA

of Dredging Associations, WODA

commissions, and committees such as the Environmental and Strategic Commissions and the Development and PR Committees

- Managing, executing or supporting the execution of various CEDA projects
- Developing and maintaining the online presence of CEDA
- Managing CEDA's financial and operational administration
- Membership administration
- Acting as the Secretariat for CEDA-NL.

Apart from the central CEDA Secretariat, every National Section has its own national secretariat.

Commissions and committees

In 2009 the following permanent commissions and committees were operational:

- Environment Commission – CEC:
- Communications Commission - CCC
- Strategy Implementation Commission - SIC
- Young CEDA Commission - YC
- National Section Executive Committees

In 2009 the following changes were made to governance and management:

Communications Commission - CCC

The Board of Directors

resolved to set up the permanent Communications Commission (CCC) and appointed Jos Claessens to Chairman.

Strategy Implementation Commission - SIC

At the meeting of the Board of Directors in April 2009 it was decided that the Strategy Committee that was responsible for developing The way ahead - CEDA Strategy 2009 – should continue as the Strategy Implementation Commission chaired by Hendrik Postma.

Young CEDA Commission-YCC

In 2009 the Development Committee was renamed Young CEDA Commission, to reflect its changed role. In October Daan Rijks succeeded Loek Verheijen as the new chairman while Mr. Verheijen entered the CEDA Board.

Task groups and ad-hoc committees

Ad-hoc committees and task groups are set up to perform a certain task. These groups have a defined life time. Membership is by nomination or

invitation.

Groups in 2009 in operation were:

- CEDA Dredging Days 2009 Technical Papers Committee
- WODCON XIX Technical Papers Committee – CEDA Region
- Editorial Committee CEDAwiki
- Task Group Dredgeline
- Advisory Group for the EU Marine Strategy Framework Directive

From left. Front row: Daan Rijks, Bert Kips, Tjibbe van Ellen, Anna Csiti, Loek Verheijen, Jos Claessens

Middle row: Bart Verboomen, Freddy Aerts

Back row: Cees van Rhee, Polite Laboyrie, Hendrik Postma, Johan Pennekamp, Michael Costaras, Anders Jensen

Missing from the photo: Mohammed Bachiri, Hugo De Vlieger, Carlo Marconi

Board, Commissions, Committees, Task Groups

A word of thanks to all the volunteers working for the benefit of CEDA is appropriate here. All those silent, sometimes not so silent, CEDA workers spent part of their free time contributing to CEDA's successes. Often their employers allow them to do part of it in their companies' time. Thanks for this too.

The (wo-)manning of CEDA's voluntary based units in 2009 are listed on the following pages. The lists reflect the status on 31 December 2009.

Board of Directors

* Directors elected on 5 November 2009

Freddy Aerts, Flemish Government, Belgium (*Chairman CEDA-Belgium Executive Committee*)

Andrew Birchenough*, Cefas, UK

Jos Claessens, Flemish Dutch Scheldt Commission, Belgium (*Vice-President and Chairman CCC*)

Michael Costaras, HR Wallingford, UK (*Chairman CEDA-UK Executive Committee*)

Tjibbe van Ellen, DHV, The Netherlands

Claudia Flecken*, Hamburg Port Authority, Germany

Tarik Jakhoukh*, Drapor, Morocco (*Chairman CEDA- Africa Executive Committee*)

Anders Jensen, Femern Baelt, Denmark (*President*)

Polite Laboyrie, Ministry of Transport, Public Works and Water Management, The Netherlands (*Chairman CEC*)

Johan Pennekamp*, Deltares, The Netherlands (*Chairman CEDA-Netherlands Executive Committee*)

Hendrik Postma, Royal Boskalis Westminster, The Netherlands (*Chairman Strategy Implementation Commission - SIC*)

Cees van Rhee, Delft University of Technology, The Netherlands (*Secretary/Treasurer*)

Daan Rijks, DHV, The Netherlands (*Chairman Young CEDA Commission*)

Jan Vandenbroeck*, S.D.I., France

Bart Verboomen*, Baggerwerken Decloedt & Zn, Belgium

Loek Verheijen*, IHC Dredgers, The Netherlands

Retiring from office on 5 November 2009 with special thanks for their contribution to CEDA were:

Mohammed Bachiri, Drapor, Morocco (*Chairman CEDA- Africa Executive Committee until November 2009*)

Bert Kips, IHC Beaver Dredgers, The Netherlands (*Vice-President*)

Carlo Marconi, Societa Italiana Draggagi, Italy

Hugo De Vlieger, Dredging International, Belgium

General Manager

Anna Csiti, The Netherlands

Commissions, Committees

Environment Commission - CEC

Ida Brøker, DHI - Water and Environment, Denmark (*joined in October 2009*)

Anna Csiti, CEDA, The Netherlands

Heinz Glindemann, Hamburg Port Authority, Germany

Polite Laboyrie, Ministry of Transport, Public Works and Water Management, The Netherlands (*Chairman*)

Igor Liska, International Commission for the Protection of the Danube River, Austria

Helmut Meyer, Federal Waterways- and Shipping Administration, Germany

Lindsay Murray, Cefas, UK (*Vice-Chairwoman*)

Hugo De Vlieger, Dredging International de Panama, Panama

Olivier Piet, CETMEF, France

Gerard van Raalte, Royal Boskalis Westminster, The Netherlands

Daan Rijks, DHV, The Netherlands (*joined in October 2009*)

Frederik Roose, Ministry of the Flemish Community, Belgium

Michael Shilin, Russian State Hydrometeorological University, Russia (*joined in October 2009*)

Paul Vercrujssse, IHC Merwede, The Netherlands

Javier de la Riva, Port Authority Santander, Spain (*joined in March 2009*)

Emmanuele Zanotto, Venice Port Authority, Italy

Corresponding Members

John Dobson, EADA, Australia

Valerie Penchev, Black Sea Coastal Association, Bulgaria

Craig Vogt, Ocean and Coastal Protection Division, USA

Shuho Yano, Mitshubitsi Heavy Industries, Japan

Alternates to CEC members

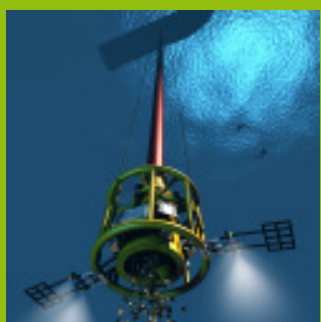

Stefan Aarninkhof, Royal Boskalis Westminster, The Netherlands

Siegfried D'haene, Dredging International, Belgium (*joined in November 2009*)

Katrin Grünwald, Federal Institute of Hydrology, Germany

Member of the World Organisation
of Dredging Associations, WODA

Pol Hakstege, Ministry of Transport, Public Works and Water Management, The Netherlands

Axel Netzband, Port Authority Hamburg, Germany

Strategy Implementation Commission - SIC

Anna Csiti, CEDA, The Netherlands

Tjibbe van Ellen, DHV, The Netherlands

Polite Laboyrie, Ministry of Transport, Public Works and Water Management, The Netherlands

Hendrik Postma, Royal Boskalis Westminster, The Netherlands (*Chairman*)

Loek Verheijen, IHC Dredgers, The Netherlands

Bart Verboomen, Baggerwerken Decloedt & Zn, Belgium

Retiring from the Commission on 5 November 2009 with special thanks for his contribution was :

Bert Kips, IHC Beaver Dredgers, The Netherlands

Communications Commission - CCC

Jos Claessens, Flemish Dutch Scheldt Commission, Belgium (*Chairman*)

Bart Verboomen, Baggerwerken Decloedt & Zn, Belgium

Anna Csiti, CEDA, The Netherlands

Martin van Ommen, IHC Dredgers, The Netherlands

Young CEDA Commission - YCC

Björn Gäbe, Federal Waterways- and Shipping Administration, Germany (*joined in December 2009*)

Leann Nipius, Royal Boskalis Westminster, The Netherlands

Martin van Ommen, IHC Dredgers, The Netherlands (*joined in November 2009*)

Daan Rijks, DHV, The Netherlands (elected in October 2009) (*Chairman*)

Joan Ronald, Van Oord UK, UK

Denis Seuryneck, DEME, Belgium (*joined in November 2009*)

Kathleen de Wit, IMDC, Belgium

Yi-Bin Shan, Flemish Government, Belgium

Andreas Wurpts, University Hannover, Germany

Retiring from the Commission in November 2009 with special thanks for their contribution were:

Loek Verheijen, IHC Dredgers, The Netherlands

Bart Verboomen, Baggerwerken Decloedt & Zn, Belgium

Niksa Marusic, WSA Cuxhaven, Germany,

Andy Birchenough, Cefas, UK (*retired from the Commission in April 2009*)

CEDA-Africa Executive Committee

Fogan Kodjo Adegnon, Port Authority of Lome, Togo

Youssefi Abdeljabbar, Ministry of Equipment and Transport, Morocco

Smain Bachtarzi, Meditram, Algeria

Jamal Benjelloun, National Agency of Maritime Ports, Morocco

Najat Chaouq, Medocean, Morocco

Abdelhamid Frioui, Meditram, Algeria

Said Hanafi, Drapor SA, Morocco

Riahd Hentati, Taparura, Tunisia

Abdelkebir Hmimou, Drapor, Morocco

Tarik Jakoukh, Goupe World Drapor (*Chairman since November 2009*)

Amadou Kane, Port of Dakar, Senegal

Anouar Khalifa, Agency of Marine and Ports Commerce, Tunisia

Ahmed Lofti, Institution for Port Construction, Morocco

Ahmed Mohktar, Porto of Nouakchott, Mauritania

Ahmed Ould Mohameden, Port of Nouadhibou, Mauritania

Olumide Amos Oluwole, Chemicals & Oil Services, Nigeria

Jean Piere Oyiba, Oprag, Gabon

Bara Sady, Port Authority of Dakar, Senegal

Carlos Da Silvia, Port Authority Guinee Bissau, Guinee Bissau

Carlos Teixeira, Hidroports, Angola

El Houssain Youzalen, NC2, Morocco

Ahmed Zinoun, Central Insurance Company, Morocco

Stepping down as Chairman in November 2009 with special thanks for his contribution was:

Mohammed Bachiri, Drapor, Morocco

CEDA-Belgium Executive Committee

Freddy Aerts, Flemish Government, (*Chairman*)

Jos Claessens, Flemish Dutch Scheldt Commission
 Christiaan Dekeyzer, Jan De Nul
 Christian Demeyer, Witteveen + Bos Belgium
 Martin Ockier, Dredging International
 Jos Smits, IMDC
 Bart Verboomen, Baggerwerken Decloedt & Zn

CEDA- Netherlands Executive Committee

Simon Burgmans, Van Oord Dredging & Marine Contractors N.V.
 Kees van de Graaf, Dutch Dredging
 Peter Hamburger, Hamburgermanagement
 Bert Kips, IHC Beaver Dredgers
 Peter van der Linde, Royal Boskalis Westminster NV
 Johan Pennekamp, Deltares, (*Chairman*)
 Loek Verheijen, IHC Dredgers
 Jelle Visser, Ministry of Transport, Public Works and Water Management

Alternates

Mr Robbert Jan Nortier, Ministry of Transport, Public Works and Water Management
 Mr Robin Morelissen, Deltares

Retiring from the Committee in May 2009 with special thanks for their contribution were:

Kees van de Graaf, Dutch Dredging
 Wil Borst, Blue Pelican

CEDA- United Kingdom Executive Committee

Andrew Birchenough, Cefas
 Steve Challinor, Royal Haskoning UK
 Nicola Clay, HR Wallingford
 Mike Costaras, HR Wallingford (*Chairman*)
 Payam Foroudi, Halcrow Group
 John Greenhalgh, Greenhalgh Associates
 John Goodwin, Anthony Bates Partnership
 Bob Kidd, Westminster Dredging Co
 John Mackenzie, Van Oord UK
 Martin Maloney, Anthony Bates Partnership
 Lindsay Murray, Cefas
 Nick Smith, British Waterways
 Peter Whitehead, ABP Marine Environment Research

CEDA Dredging Days 2009 Technical Papers Committee

Erik van der Blom, IHC Merwede, The Netherlands
 Anna Csiti, CEDA, The Netherlands
 Pol Haksteege, Ministry of Transport, Public Works and Water Management, The Netherlands
 Jan van 't Hoff, Dredging Consultancy van 't Hoff & Partners BV, The Netherlands
 Anders Jensen, Femern Baelt, Denmark
 Bernard Malherbe, Jan De Nul, Belgium
 Martin Maloney, Anthony Bates Partnership Dredging and Coastal Consultants, UK
 Cees van Rhee, Delft University of Technology, Netherlands (*Chairman*)
 Stefaan Vandyckef, Dredging International, Belgium

WODCON XIX Technical Papers Committee – CEDA region

Najat Chaouq, Drapor, Morocco
 Michael Costaras, HR Wallingford, UK
 Anna Csiti, CEDA, The Netherlands
 Caspar Cramers, Innovaart, The Netherlands
 Bernard Malherbe, Jan De Nul, Belgium
 Cees van Rhee, Delft University of Technology, Netherlands (*Chairman*)
 Daan Rijks, DHV, The Netherlands

Other temporary groups set up for particular tasks for a definite time period

In 2009 the following task groups were operational:

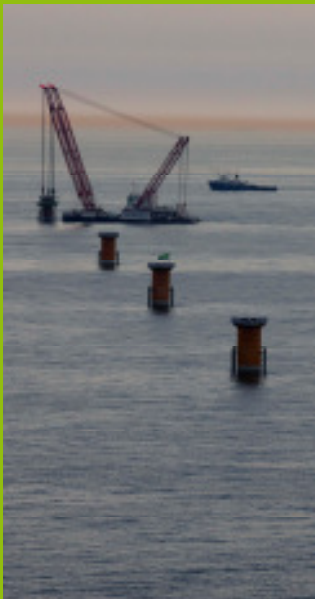

Audit Committee 2009

Signe Ingvartsen, Danish Coast Authority, Denmark
 Randi l'Heureux, Jan De Nul, Belgium
 Gaby Schouten, Blue Pelican, The Netherlands (*Chairman*)

Understanding Dredging

Editorial Board “Environmental Aspects of Dredging” (operating under CEC)

Nick Bray, HR Wallingford, UK (*Chairman*)
 Anna Csiti, CEDA, The Netherlands
 Constantijn Dolmans, IADC, The Netherlands
 Gerard van Raalte, Royal Boskalis Westminster, The Netherlands

Editorial Committee CEDAwiki

Andreas Wurpts, University of Hannover, Germany (*Chairman*)
 Anna Csiti, CEDA, The Netherlands
 Tim Maddock, Van Oord Dredging & Marine Contractors NV
 Wim Vlasblom, Prof Emeritus, Technical University, Delft

Task Group Dredgeline

Anna Csiti, CEDA, The Netherlands (*Chairman*)
 Caspar Cramers, Innovaart, The Netherlands
 Don Hayes, Louisiana University, USA (WEDA representative)
 John Dobson, EADA, Australia
 Pieter Degroote, Jan De Nul, Belgium
 Kathleen De Wit, IMDC, Belgium

Advisory Group for the EU Marine Strategy Framework Directive (operating under CEC)

Bart Callaert, Envisan, Belgium
 Nicola Clay, HR Wallingford, UK
 Anna Csiti, CEDA, The Netherlands
 Wouter Dirks, Van Oord Dredging & Marine Contractors
 Anders Jensen, Femern Bael, Denmark
 Polite Laboyrie, Ministry of Transport, Public Works and Water Management, The Netherlands
 Lindsay Murray, Cefas, UK
 Axel Netzband, Hamburg Port Authority, Germany
 Renaat De Sutter, University of Gent, Belgium

CEDA Representation at international forums, bodies, working groups

London Convention (1972/1996):

Andy Birchenough, Cefas, UK
 Polite Laboyrie, Ministry of Transport, Public Works and Water Management, The Netherlands
 Lindsay Murray, Cefas, UK

OSPAR Convention

Adrian Judd, Cefas, UK
 Anders Jensen, Femern Bael, Denmark
 Lindsay Murray, Cefas, UK

International Commission for the Protection of the Danube River - ICPDR

Pol Hakstege, Ministry of Transport, Public Works and Water Management, The Netherlands

The Strategic Co-ordination Group for the EU Water Framework Directive Common Implementation Strategy

Axel Netzband, Hamburg Port Authority, Germany

The Marine Strategy Coordination Group of the of the EU Marine Strategy Framework Directive Common Implementation Strategy and its working groups

Anna Csiti, CEDA, The Netherlands
 Nicola Clay, HR Wallingford, UK
 Steve Challinor, Royal Haskoning, UK
 Katherine Harris, Port of London Authority, UK

Water Framework Directive Navigation Task Group - WFDNTG

Grahame Newman, British Waterways, UK
 Axel Netzband, Hamburg Port Authority, Germany
 Lindsay Murray, Cefas, UK

Marine Strategy Navigation Group - MSNG

Nicola Clay, HR Wallingford, UK (*Chairing the Group for CEDA*)
 Anna Csiti, CEDA, The Netherlands

PIANC Environment Commission

Anna Csiti, CEDA, The Netherlands

Polite Laboyrie, Ministry of Transport, Public Works and Water Management, The Netherlands

PIANC WG11 (2009): Management re-use and transformation of existing CDF's

Bart Nevejans, DEC, Belgium

Haico Wevers, Boskalis, the Netherlands

PIANC Envicom WG14 (2009): Dredged Material as a Resource

Najat Chaouq, Drapor, Morocco

PIANC Envicom WG13 (2009): Dredging Management Practices for the Environment

Christine S. Adnitt, Posford Haskoning Ltd, UK

Gerard van Raalte, Royal Boskalis Westminster, The Netherlands

PIANC Envicom WG15 (in preparation): Environmental Aspects of Dredging and Port Construction Around Coral Reefs

Caroline Fletcher, HR Wallingford, UK

Tom Foster, DHI, Denmark

PIANC Marcom WG51 (in preparation): Water Injection Dredging

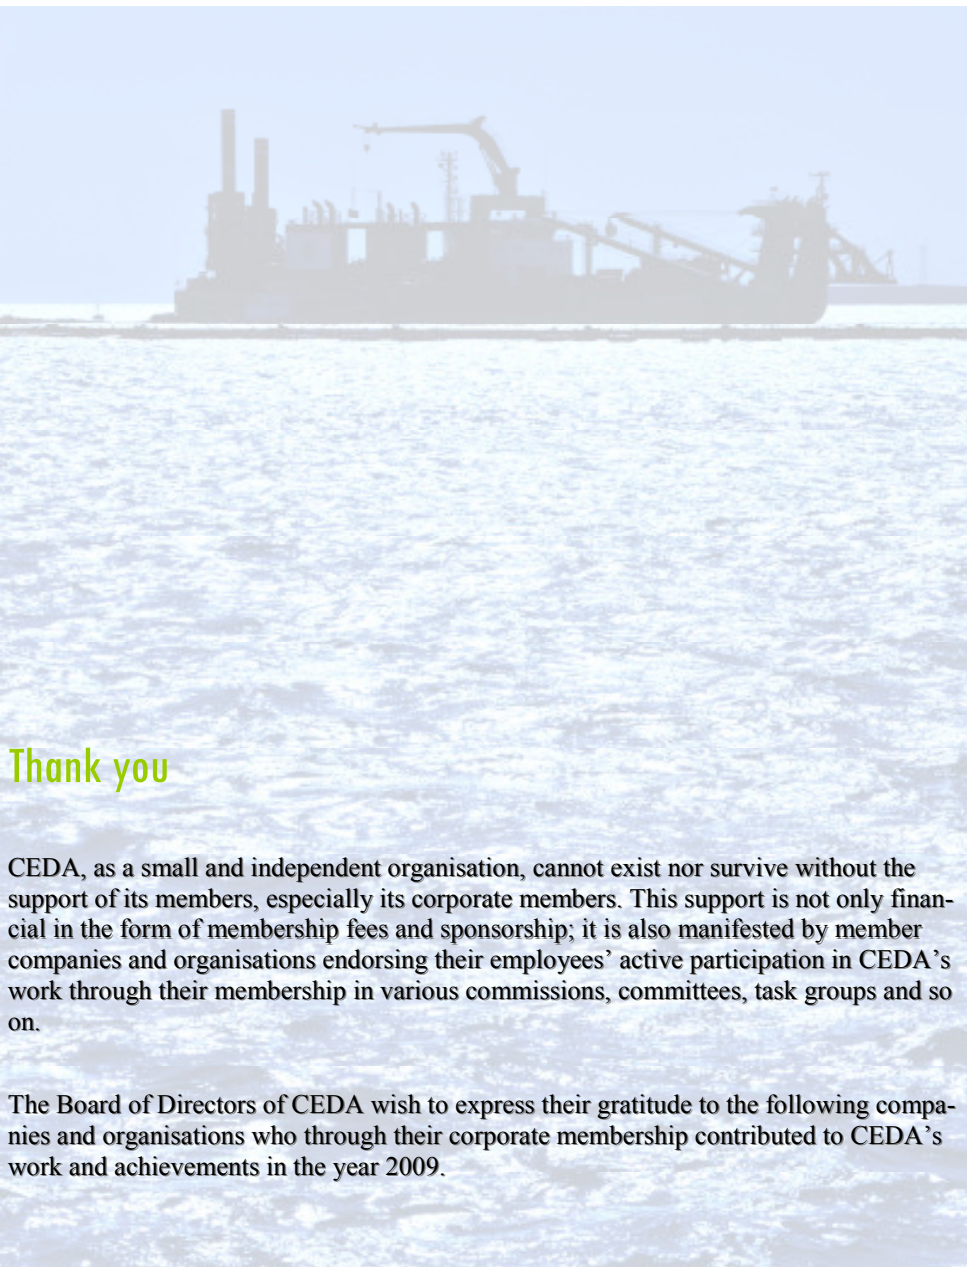

Nicola Clay, London Port Authority, UK

Hugo De Vlieger, Baggerwerken Decloedt & Zn, Belgium

Paul Smit, Van Oord, the Netherlands

PIANC Marcom WG136 (in preparation): Recommendations for Sustainable Maritime Navigation

Steve Challinor, Royal Haskoning, UK

Thank you

CEDA, as a small and independent organisation, cannot exist nor survive without the support of its members, especially its corporate members. This support is not only financial in the form of membership fees and sponsorship; it is also manifested by member companies and organisations endorsing their employees' active participation in CEDA's work through their membership in various commissions, committees, task groups and so on.

The Board of Directors of CEDA wish to express their gratitude to the following companies and organisations who through their corporate membership contributed to CEDA's work and achievements in the year 2009.

We promote dredging as a tool for sustainable development

We make your life easier by working with and advising such regulatory organizations as the London Convention and Protocol, the OSPAR Commission and relevant European Commission expert groups on how to make environmental legislation workable

Understanding
dredging
